Business managers use statistics as an aid to making decisions in the face of uncertainty. Statistics can be used for making sales projections, financial analysis of capital expenditure projects, constructing profit projections for a new product, setting up production quantities, and making a sampling analysis to determine the quality of a product. Using statistics provides real data about complex situations rather than making decisions based on

Statistical techniques in business and economics . Report Issue Respond to... There are strengths and weaknesses associated with statistical testing. For this discussion, begin by reviewing the various methods of statistical testing presented in your textbook (i.e., t-tests, ANOVA, chi-square, and f-tests). Then, keeping these methods in mind, read the following quotes: Based on the above ...
